Hopkins Brothers is a committed member of these industry organisations:

OUR HISTORY

The Hopkins family have a transport business history in the Rockhampton region dating back to the 1880's.

Prior to the establishing Hopkins Brothers, our Company Directors gained a wealth of experience working in transport, earthmoving and commercial fields. Hopkins Brothers commenced operations in 1987 and moved operations to our current headquarters at 380 Alexandra St Parkhurst in 1993. Quarry operations commenced at Midgee in 2002.

From humble beginnings, owning one truck and one end-loader, Hopkins Brothers has expanded into a fully-equipped leading supplier of hard rock quarry products, sand, soil and gravels, earthmoving, transport, rail maintenance and construction services in Central Queensland and beyond.

OUR PHILOSOPHY

Based on strong foundations of over thirty years in business, Hopkins Brothers operates with high standards, and is a company of action and reliability.

All six company directors are active in the day to day running of the business, and together with our skilled and dedicated workforce, deliver products and services of the highest quality.

Hopkins Brothers has not only survived, but has thrived in highly regulated industries such as quarrying, road transport and rail infrastructure due to high work standards, robust risk management, and stringent safety and environmental procedures.

We take pride in our reputation for getting the job right the first time (no re-work), safely (no injuries), on time (or before time) and on budget.

Hopkins Brothers is committed to the local community. We are proudly locally owned and operated, and use local suppliers whenever possible. We also support a number of community groups, sporting clubs and charities.

We are proud to sponsor these community groups:

PRODUCTS & SERVICES

HARD ROCK QUARRY PRODUCTS

We own and operate our own Quarry, manufacturing a wide variety of hard rock quarry products. We are TMR and Aurizon accredited for manufacture and supply of Road Base, Aggregates and Railway Ballast.

SAND, SOIL, GRAVEL & LANDSCAPING MATERIALS

We produce, screen and supply granite and a large range of soils and soil blends, sands and con-mix. We supply quality gravel, pebble, mulch, bark and woodchip products.

EARTHMOVING & PLANT HIRE

We have multiple, well maintained units available for wet hire, including Excavators (track and wheel), Front End Loaders, Graders, Dozers, Rollers, Moxies, Tipper and Water Trucks, and also Mobile Screening Plants, Mobile Crushing Plants and Mobile Pug Mill / Blender. We have extensive earthmoving experience and capability, including site clearing, site rehabilitation, haul road construction, hardstand construction, dam construction, house and shed pads, and other bulk earthworks projects.

SPECIALISED TRANSPORT & LOGISTICS SERVICES

We have multiple units available including Tippers and Conventional-Body Trucks, Floats, B Doubles and Road Trains all maintained to NHVAS requirements. We provide machinery logistics, hard stand storage and distribution. We operate two certified public weighbridges.

RAIL INFRASTRUCTURE CONSTRUCTION & MAINTENANCE

For over 25 years we have been a provider of Wet Plant Hire services to Aurizon and Queensland Rail for rectification and maintenance works on the Central Queensland Coal Network.

CAPABILITIES

- More than 150 units of Mobile Plant
- More than 150 Trucks, Trailers & Service Vehicles
- Ability to produce more than 500,000 tonne per annum of Quarry Materials
- Over 70 Employees - Competent and experienced operators, drivers, mechanical, technical and support staff

QUALITY STANDARDS & ACCREDITATIONS

- ASSA-HSEQ & Workplace Practices System (Acct No. Au00139776)
- Aurizon Certified Ballast Supplier
- NHVAS Maintenance Management (Accreditation 540/11567)
- TMR Certified Quarry

KEY CUSTOMERS

AURIZON NETWORK

We provide rail infrastructure construction and maintenance on the CQ coal network, specialised transport and logistics services, earthmoving, plant hire, production and delivery of railway ballast.

ROCKHAMPTON REGIONAL COUNCIL

We are a long-term pre-qualified supplier of sands, soils, other landscaping materials and hard rock quarry products.

LIVINGSTONE SHIRE COUNCIL

We are a pre-qualified supplier of plant & equipment hire and transport services.

WBHO

We supply road base material, plant & equipment hire and transport for many significant road network projects in the Rockhampton region.

**Queensland
Government**

Department of Transport
and Main Roads

DEPARTMENT OF TRANSPORT & MAIN ROADS (QLD)

Supplier of road base materials for numerous projects in the CQ region.

PROJECTS

Hopkins Brothers have significant experience in the fields of earthmoving, transport and the supply of quarry products and landscaping materials. These are some of our recent major projects:

ROCKLANDS TO STANWELL RAIL DUPLICATION PROJECT

CLIENT Leightons Constructions Pty Ltd

DURATION 2012 - 2013

SERVICES This major project involved the construction of access roads, drainage infrastructure and 18km of railway line duplication between Rocklands and Stanwell. Hopkins Brothers provided extensive earthmoving services, machine hire, float services and water tankers. We also supplied 350,000 tonnes of Aurizon accredited quarry products (C Class, Shot Rock, Road Base, Capping Material and Flood Rock).

BRIDGE WORKS – YEPPEN SOUTH PROJECT

CLIENT John Holland

DURATION 2014 - 2015

SERVICES The Yeppen South project flood proofed the Bruce Highway at the southern entrance to Rockhampton. Hopkins Brothers undertook rock protection works and bridge works, supplying rock filter material, shot rock and access materials for bridge construction works.

MAJOR TOPSOIL PROJECT – KERSHAW GARDENS REDEVELOPMENT

CLIENT Rockhampton Regional Council

DURATION 2016 - 2018

SERVICES Kershaw Gardens suffered significant damage as a result of Tropical Cyclone Marcia in February 2015. Following an extensive clean up, Rockhampton Regional Council commenced a complete redevelopment in 2016. Hopkins Brothers supplied and delivered over 16,500 tonnes of quality topsoil to develop this much-loved community facility.

BRUCE HIGHWAY RECONSTRUCTION, WIDENING AND UPGRADE BAJOOL-MIDGEE PROJECT

CLIENT WHBO Infrastructure Pty Ltd

DURATION February 2017 - November 2018

SERVICES Hopkins Brothers supplied TMR certified road base materials, transportation services, earthmoving and plant hire for the reconstruction, widening and intersection upgrades to 9.5km of the Bruce Highway, south of Rockhampton.

RAIL NETWORK FLOOD RECOVERY WORKS – BLACK MOUNTAIN GOONYELLA – HAY POINT SYSTEM

CLIENT Aurizon
DURATION April – May 2017
SERVICES The Goonyella System of the CQ Coal Network was damaged by Tropical Cyclone Debbie in 2017. Hopkins Brothers provided specialized earthworks and rail infrastructure repairs to damage caused by washouts and landslips at Black Mountain. The line was re-opened to coal trains in eight days. We also assisted in stabilisation of washouts and landslips for several weeks there after.

BRUCE HIGHWAY SAFETY UPGRADES SIX MILE CREEK-GAVIAL CREEK PROJECT

CLIENT WBHO Infrastructure Pty Ltd
DURATION June 2017 – June 2018
SERVICES Hopkins Brothers supplied 200,000 tonnes of TMR certified quarry materials (C Class, Road Base, Flood Rock & Precoated Aggregates), float services for machine movements and two water tankers for the entirety of the project.

PRE-QUALIFIED SUPPLIER – ROCKHAMPTON REGIONAL COUNCIL

CLIENT Rockhampton Regional Council
DURATION Ongoing
SERVICES Pre-qualified supplier of Plant & Equipment to RRC.
Pre-qualified supplier of Quarry & Landscaping Materials to RRC.
Hopkins Brothers worked with two full crews for several months cleaning up after Cyclone Marcia as part of the recovery works.
